

AUGUST 2024

WOODFIBRE LNG & FORTIS BC EAGLE MOUNTAIN GAS PIPELINE PROJECTS

Update from Skwxwú7mesh Úxwumixw Rights & Title

We recognize we are in canoe season so if you are on the water and have any concerns with vessel traffic from either project, please contact 778-966-1117 immediately.

EXPECT MINOR TRAFFIC DELAYS (FINCH DR, SQUAMISH)

Early works have started along Finch Dr and Industrial Way which will continue throughout August into September, to verify the locations of existing underground utilities prior to construction of the new natural gas pipeline in the area later in 2024 or 2025. To support this work, there will be short, periodic lane closures in effect - with single lane alternating traffic, which may result in some delays through this area. Access to residences and businesses will be maintained

CAMPS & COMMUNITY SAFETY

By the end of 2023, skwxwú7mesh Úxwumixw and the BC Environmental Assessment Office (EAO) approved project amendments to include a temporary workforce camp at the FortisBC Eagle Mountain Pipeline Project and a floatel at WoodfibreLNG. Both of these worker camps were proposed to avoid strain on local housing, traffic, medical services, etc. and to support creation of a respectful workforce.

FLOATEL

The floatel arrived at Swi'yát (Woodfibre LNG) late June 2023 to ensure compliance with EOA conditions. In order to help keep our community safe, WoodfibreLNG has made the following commitments below:

- Out of town workers are required to live at the floatel and will be transported by boat directly to site to avoid interactions in Squamish
- Several policies such as a Respectful Guest Policy, Zero-Tolerance Policy for Alcohol and Drugs, Bullying, Harassment and Discrimination Policy and Worker Code of Conduct will be enforced
- Various mandatory worker training such as Addictions Awareness Training, Harassment Prevention Training and training to support Don't be a Bystander behaviour
- Create a Gender Safety Advisory Committee to provide feedback on gender safety programming and recommendations on how Woodfibre LNG should address safety and security impacts to Indigenous women, other women and 2SLGBTQQIA + people
- Reporting obligations such as a Confidential Reporting Line and Worker Feedback Program to support a culture of reporting
- Community Training such as Personal Safety, Risk Identification and Situation Awareness training offered to community members, Consent Training for local high schools in Squamish and training capacity to the local womens' centre - Pearl Space
- Floatel and Workplace Culture Committee that will include a Floatel Indigenous Cultural Manager to track and make recommendations on supporting a respectful workplace

FORTISBC EGP CLINIC AND CAMP

Although the temporary use permits associated with the workforce camp has not yet been approved by the District of Squamish, the following initiatives to reduce impacts on local services, and support a respectful workforce, have been implemented already:

- On May 31, 2024, FortisBC opened a Health and Medical Clinic in Squamish dedicated to Eagle Mountain Project workers and contractors to reduce impacts on local medical services
- On June 3, 2024, FortisBC set up a Respectful Community Conduct Line, a third-party reporting line, for any member of the public to call or email about alleged misconduct by an EGP Project worker
- Mandatory Gender and Cultural Safety Training for all workers
- Annual mandatory Gender and Cultural Safety Training for all project workers
- EGP Worker Code of Conduct must be signed and agreed to by all workers to behave in a way that supports respectful behaviour, compliance with health, safety and environment commitments, and prohibits violence or harassment
- EGP has mandatory worker orientation to promote and enhance positive workforce conduct that include training to prevent harassment and bullying
- A series of Gender & Cultural Safety Moments, that can be used by the Project in toolbox meetings to promote continual learning is being co-developed in partnership with PearlSpace

Workforce camp rendering photos

Additional commitments when the FortisBC camp is in place include:

- Elder-in-Residence to act as safe space for workers especially Indigenous workers and support respectful workplace behaviour
- A strict, “no-visitor” policy will be enforced at the camp by requiring residents to sign in at a security gate
- The camp will have 24-hour security
- A secure tracking system for limited alcohol purchase at the camp in designated areas only
- Medical and Mental Health clinic at the camp

Committee of the Whole Meeting on Sep 10th with District of Squamish regarding FortisBC proposed camp.

WE WANT TO HEAR FROM YOU!

Have you been impacted as a result of the current construction activities that are taking place?
